## Gypsy

For those lazy Saturday mornings when you just want to lounge around in your knickers and a t-shirt, Gypsy undergarments are just the ticket. The soft cotton jersey undies give the perfect amount of coverage while still being sexy and come in 5 different prints—my favorite is the *Into The Mystic* batik print. The designer, a New York resident who traded in the big apple to sink her feet into the sand on a daily basis, started the line in April and will soon be debuting bras and bikinis in the fall. Something tells me the boyfriend won't mind staying in for a lazy morning—just a hunch.

COULD I HAVE THAT?

A fashion writer's creative outlet that focuses on clothing, accessories, beauty, lifestyle and the occasional sweet treat.
